December 2009

Introducing the HydraFacial!
MPS has done it again! We are the first practice in Miami to have the HydraFacial, the newest breakthrough advancement in non-laser resurfacing! HydraFacial is the only hydadermabrasion procedure that combines cleansing, exfoliation, extraction, hydration and antioxidant protection simultaneously, resulting in clearer, hydrated, rejuvenated, more beautiful skin with no discomfort or downtime. The treatment is soothing, moisturizing, non-invasive, non-irritating and immediately effective.

The HydraFacial has been a favorite pre-red carpet treatment for the stars! It has also been featured on The Doctors, Allure Magazine, The ESPY Awards, Essence Magazine, Malibu Magazine, Star Magazine, Fox, NBC, ABC, and CBS.

Get the Hollywood Glow at Miami Plastic Surgery, the first and only practice in Miami to have the HydraFacial!

The results are so amazing, you will want it done on your wedding day, as seen in InStyle Weddings!

Introductory Price - $130!!

Book your HydraFacial with Ana today.

Be on the lookout for our next educational webcast! Featuring Dr. Wolf discussing Dysport and Restylane as he injects a patient.

Buy a gift, receive a gift...

Buy one gift certificate for a loved one and get 50% off on a treatment; buy two gift certificates and get a FREE treatment.

After all, what’s better than the gift of beauty?

*Each gift certificate must be a value of $100 or more to receive the 50% off or free treatment for yourself. All gift certificates must be used towards skincare treatments or products. Discounted or free treatment, must be one of the following; oxygen treatment, microdermabrasion, or dermaplane.
Case of the Month: Fat Grafting with Dr. Kelly

Fat grafting, also known as a fat transfer, microlipoinjection, or lipostructure, has rapidly become one of the most popular procedures around the world. The loss of facial fat is one of the most important contributors to an aging face. Simply tightening the facial skin and underlying structures, as is done in a facelift, will not replace the volume that is lost over time. Through the technique of fat grafting, live fat cells can be transferred from unwanted areas to areas that are deficient. This procedure can usually be performed under local anesthesia or with some light sedation. Fat is meticulously removed from the abdominal area, thighs or buttocks. It is then processed to remove the living cells, which are then injected into the desired areas. The procedure typically takes about one hour to complete.

There is generally some swelling and bruising associated with the procedure which resolves quite rapidly. Most patients require minimal or no pain medication afterwards. The results usually last for years. The most common areas where fat grafting is performed include the lips, the folds along the sides of the mouth, cheeks, chin and forehead. It can also be performed on the hands to improve their aging appearance.

The patient pictured below opted for an upper and lower blepharoplasty along with fat grafting to her peri-oral (around the mouth) and along the orbital rim (below her eyes) to replace the lost fat so as not to see a distinction between these areas and her cheeks.

If you would like to schedule a consultation with Dr. Kelly please call us at (305)595-2969.

Goodbye Spider Veins!!

MPS is excited to introduce a new member to the practice, Cheryl Franklin RN Sclerotherapist. Sclerotherapy is the safest and best treatment for eliminating spider veins on the legs. The process involves injecting a very small needle into the spider vein with hypertonic saline. This causes an inflammatory reaction and the gradual fading of treated vessels over a period of several weeks. Sclerotherapy usually requires about 2-6 sessions depending on the area being treated.

"Liquid Smile is like a lip gloss you apply to your teeth! In less than a minute it does the job!" -M.S.

HELP STOP THE "BOTAX"

As you may have already read in our email from last week, there is a healthcare plan in the Senate that will unfairly discriminate against you. Everyone who utilizes our services for anything from Botox to Tummy Tucks will be affected by this tax.

The current healthcare bill before the US Senate, Page 2045 Sec. 9017, Excise Tax on Elective Cosmetic Medical Procedures included in the "Patient Protection and Affordable Care Act" This dense legalese translates to a tax on all cosmetic procedures as partial payment for the healthcare overhaul our current administration is attempting to implement.

So what's the problem?
YOU would be paying this tax, the FIRST time this country has levied a tax on patients for medical procedures.

What's at stake?
- This is a discriminatory tax. According to the Aesthetic Society Annual Statistics, 91% of all cosmetic procedures are requested by women.
- This will not have considerable consequences on the wealthiest patients but, as usual, affects the middle class. Working women, soccer moms, and scores of others who carefully save and budget to improve their appearance and self esteem will be penalized for doing so.
- Procedures such as breast reduction that have been cited in the literature for improving self esteem and quality of life would be taxed as well.
- Your doctor as tax collector: This provision places physicians in the role of tax collector and holds physicians liable should an individual fail or refuse to pay the tax. Is that the relationship you want with your medical provider?

Please help us stop this silly and penetrative tax. To find your State Senator please click here: http://www.senate.gov/general/contact_information/senators_cfm.cfm
You can also submit a petition to:
www.stopbotax.org

We urge you to personally inform the government that you are against this tax - together we can fight for your right to no government interference in medical care and stop this discriminatory measure against women!

Our thanks to all of you who have already written to our Senator with their concerns on the tax.

Patient’s Corner with Colleen Suarez

My experience with Miami Plastic Surgery was nothing but positive!! I had wanted to get a procedure done for quite sometime and was ready to schedule surgery with a plastic surgeon at Mt. Sinai, but my fiance really wanted me to have a consultation with Dr. Carlos Wolf.

I went to see Dr. Wolf and from the minute I walked into the door, I felt welcomed and special. I could not get over how friendly everyone was. After being in so many doctors offices in the past few years from a car accident my expectations were so low due to such rudeness in some offices. But the minute I stepped in to MPS I couldn’t believe how wonderful it could be!!

Not only did Dr. Wolf explain the procedure in detail he really made me feel special, not just a number. Then he took me into his office and pulled out several books of “Before and After” pictures and also pulled up pictures on his computer. He really spent a great deal of time with me which really meant a lot. I was not rushed at all. I knew right then and there I would be taken care of in the best way. Not to mention he is a TRUE ARTIST at what he does!!!

Once I decided to confirm with Dr. Wolf I proceeded to meet with Ellen who is AMAZING!! Once again they make you feel special and not just a number. From then on the whole procedure was smooth sailing. I wasn’t nervous to have the surgery. The nurses that prepped me for surgery made me so relaxed (and those heated blankets are the best)!!

When I got home that day Dr. Wolf himself called me to see how I was and made it clear to call him anytime with any questions I might have. I, of course, would have called a few times and felt that I had stupid questions, but before I could even ask they answered all of them for me as they knew what the recovery was all about. I didn’t feel alone.

When I went for all my post-op visits everyone greeted me once again with HUGE smiles on their faces. They don’t rush you and really go over everything!!

What is amazing is that when you get a procedure done by Dr. Wolf he makes you look so natural!! I went to work 6 days after my procedure and no one could tell!! They made comments on looking good and asked what I’ve done. They even asked me if I was using a new cream!!! I would like to say I am a pro at detecting people that have had plastic surgery, but in all of his before and afters it was so natural and really hard to tell. That is what you want!!
I know that any procedure I will have in the future with Dr. Wolf, (and I will!) I won’t be nervous because I know I am in good hands!!

Miami Plastic Surgery is top notch!! You cannot get any more professional!! My twin sister is flying down next year to get the same procedure!! I feel like I have a new family!!

If you have a story you’d like to share, please send an e-mail to: ksilva@miamiplasticsurgery.com

Thank You!
We would like to thank all of you who attended our Holiday Smile Party in November. With your help, we raised $1,300 for Operation Smile! The check was given to Emma Kelly, a member of the Operation Smile Club at Gulliver Preparatory. The best part is that the Lincy Foundation has given Operation Smile a generous grant, so every donation received by December 31st will be matched up to half-a-million dollars. That means our donation will be doubled to $2,600!

For more information or to make a donation to Operation Smile please visit their website at www.operationsmile.org
