Celebrating Our 10th Year of Partnership!

Michael E. Kelly, M.D.
Carlos L. Wolf, M.D.
Brad P. Herman, M.D.

January 2010

Happy New Year!
The doctors and staff at MPS wish you good health, love and happiness in 2010!

Case of the Month: Keller Funnel with Dr. Herman

One of the major drawbacks to silicone implants is the need to make a large incision because the implants are pre-filled unlike saline implants which can be filled after insertion. The Keller Funnel™ is a cone shaped device designed to help plastic surgeons insert prefilled silicone implants into the breast pocket through a much smaller incision. Our doctors are one of the only doctors in the country using this new device. The cone is lined with a hydrophilic polymer coating, a special lubricant that makes the funnel slippery enough so an implant can go into the wide end, and out of the small end, and right into place. This device has enabled our doctors to easily place silicone implants through an axillary (armpit) incision just like they do with the saline implants. Another benefit of the Keller Funnel™ is that it helps reduce the risk of possible infection. Although our doctors perform surgery in the most sterile environment, the Keller Funnel™ is a no-touch breast implant system meaning it goes into the funnel and right into place without ever being touched. The Keller Funnel™ also decreases implant trauma producing less swelling, less bruising and a faster recovery. MPS continues to

MPS WEBSTORE goes LIVE next month!

Next month the MPS webstore will go LIVE! The webstore will have all of our skincare products, vitamins, and beauty products available for purchase online. You know that you can always call us to reorder a product, but now we’ve made it even easier. Stay tuned for the launch date...

Spider veins, be gone!
be at the forefront of technology and always offer patients the safest tools and techniques to provide the best possible results.

*If you would like to schedule a consultation with Dr. Herman please call us at (305)595-2969.*

**BEST BEAUTY BUYS**

*as seen in...*  
**InStyle**

Neocutis' LUMIERE is a fabulous eye cream spiked with caffeine, collagen-plumping growth factors (PSP®) and enough hyaluronic acid to soften the sharpest crow's-feet. This cream goes on light as it revitalizes and rejuvenates the delicate eye area.

Neocutis' JOURNÉE makes the most complete anti-aging day cream with PSP®, anti-oxidants, hyaluronic acid and UVA/UVB protection SPF 30+ to rejuvenate, protect and hydrate skin. JOURNÉE is suitable for all skin types.

**What is this collagen-plumping growth factor or PSP® that makes these products unique?**

NEOCUTIS proprietary technology uses cultured fetal skin cells to obtain an optimal, naturally balanced mixture of skin nutrients including cytokines, growth factors and antioxidants. This mixture is called PSP®, which stands for ‘Processed Skin Cell Proteins’.

*If you’d like to purchase these items, please call us at (305)595-2969.*

---

Since we've had such a great response with our new Spider Vein Specialist, Cheryl, we are offering a special 10% off if you book your Sclerotherapy treatment by Friday, January 14th.

*Don't forget to mention the 10% off special when you call to book your appointment!*

**Goodbye "Botax"!!**

*Thanks to the lobbying campaign by many plastic surgeons, the American Medical Association, Allergan, and of course all of you who helped by writing to your*
Senators, Senate Majority Leader Harry Reid decided to remove the proposed 5% tax on cosmetic surgery in the health bill. This bill that was expected to raise $5 billion over a decade has been replaced with a 10% tax on indoor tanning services.

Drs. Kelly, Herman, and Wolf were all featured as plastic surgery experts on several different news outlets including Telemundo, NBC, The Hugh Hewitt Show, and Cravings South Florida.

MPS educates patients through their webcasts
Next week on the MPS website, you can watch Dr. Wolf's informational webcast (in English or Spanish) about Botox, Dysport, and Restylane and watch how he injects his patients. Great for those of you have yet to try them or if you'd like to be further informed about them. Hope you enjoy! Stay tuned for our next webcast...

Employee Spotlight
After a year of being our Practice Administrator, we are proud to present Christina Elortegui as our Employee of the Month. She started at MPS as our Marketing Director, but after demonstrating such strong leadership it wasn’t long before she was promoted to Practice Administrator. When Christy is not living and breathing MPS she likes to read and exercise. She’s also working on “trying to overcome my OCD,” she says laughing. Her favorite thing about MPS is “learning something new every day and interacting with such smart and funny people. I laugh every day and that is what keeps me here”, says Christy. Now that 2009 is over, we asked Christy what her goal for 2010 is and she said, ”My goal for MPS in 2010, is to work as a team and to continue to be one
Patient's Corner with Diana Wright

When I was diagnosed with breast cancer three years ago, one of the wonderful people that helped me heal was Dr. Michael E. Kelly. Dr. Kelly is a world-class doctor who was recommended to me by several other doctors. When we met, I was very impressed by his warmth and the confidence he exudes. Even more importantly, I was extremely happy with the incredible reconstructive surgery Dr. Kelly performed. So happy, in fact, that I recently asked Dr. Kelly to perform a face-lift, which he did, giving me a great natural look. It's not just the first class surgery work that Dr. Kelly performs, it's his entire first class staff. Walking into his office is like going back in time to the personal care that touched the heart of the patient. I have no words to properly thank Dr. Kelly for what he has done for me personally, but I am pleased to share this information with other people.

-Diana Wright

If you have a story you'd like to share please send an e-mail to ksilva@miamiplasticsurgery.com

We are excited to be offering the original, Fraxel re:store™ on Wednesday, February 3rd.

Call us today to schedule your appointment, as space is limited. (305) 595-2969
