Happy 4th of July!

Ocean Drive Espanol's 2008 Power Players...
Each year Ocean Drive names it's Miami Power Players. They are not chosen by the size of their bank account or their BlackBerry contact list, but rather far more than that. They need personality, creativity, and points of view that can change the way we think. Our very own Dr. Wolf was named a 2008 Power Player, and was honored at the celebration at Novecento on June 18th hosted by Ocean Drive, Lexus, Heineken, and Select Vodka.

Case of The Month: Dr. Kelly's Notable Necklifts
We have been hearing a lot lately about how important it is to take care of our necks to slow down the appearance of aging. But there are some things that just can't be fixed with creams and lotions. Sagging necks can be caused by things like extreme weight loss, genes, or just plain getting old.
There are several solutions to fix a sagging, or fleshy "turkey" neck. There are a variety of treatment options depending on the problem. For patients with firm muscle and good skin that just have a little have excess fat, a simple liposuction can be done. For a patient that has good skin but has a sagging muscle, a submental plication is performed. A submental plication tightens the sagging muscle with an incision just under the chin. After the incision is made, some of the fat is cleaned off the muscle, and

Incision is made, some of the fat is cleaned off the muscle, and then the muscle is cut on either side and then stitched together. The two procedures above, (the liposuction and submental plication) can be combined for patients with both excess fat and sagging muscle. For a patient with poor skin, excess fat, and hanging muscle, a full necklift can be done which includes lipo, the plication, and incisions behind the ears to pull back the sagging skin. We have patients that travel from all over the country and the world to see Dr. Kelly for these procedures.

Caviar and Pearls Darling...

One of the world’s most expensive delicacies is now one of the key ingredients to youthful skin. Caviar is abounding with protein, vitamins, and minerals. Its cell format is very similar to human skin in that it is 50-70% water with a similar breakdown of lipids, parotids, and trace elements. It helps to speed up the natural production of collagen, and helps to plump and thicken the skin, giving it a younger, firmer appearance. Pevonia's Myoxy-Caviar line contains caviar, pearl extract and Escutox. Lavishly formulated with only the finest marine and botanical ingredients, it is scientifically proven to smooth wrinkles, improve elasticity, increase oxygenation and suppleness, expedite protein synthesis, and promote cellular activity. Call us now to book a caviar facial or purchase the Myoxy-Caviar line (305) 595-2969.

Luscious Lashes

After a significant amount of inquiries by all of you we decided to add RevitaLash to our product line. Revitalash is a remarkable innovation that helps you achieve dramatically longer, thicker, and fuller eyelashes. It is like a liquid liner that you apply once a day to the base of your eyelashes. The product says that it works within 60 days but we did our own little experiment and found that it actually takes 90 days to see a dramatic change. Our aesthetician Shirley gets asked daily if she’s wearing eyelash extensions!

Niacin-Powered Skin Therapy

NIA 24's Gentle Cleansing Cream was the winner of SELF Magazine’s “Health Beauty Award” for 2007. NIA 24 is the first inside-out topical Niacin-Powered skin barrier building system. Inside, the patented MicroNutrient Delivery system brings a continuous-release form of Niacin to skin which enables healing from within to promote healthier and more beautiful looking skin.
system. Inside, the patented MicroNutrient Delivery system brings a continuous-release form of Niacin to skin which enables healing from within to promote healthier and more beautiful looking skin. Outside, the skin's barrier is restored and signs of damage are dramatically reversed, ensuring stronger, better skin that is more resilient to sun damage. Pro-Niacin is the patented molecule found in each of the NIA24 products. It stimulates the repair of DNA, and enhances the energy metabolism and skin cell turnover. It also promotes the release of leptin, which is a natural repair hormone and also stimulates a receptor that decreases hyperpigmentation of the skin. NIA24 products have been featured in O, New Beauty, People, Elle, Self, Redbook, Men's Journal, and Fitness magazine. Miami Plastic Surgery carries the full line of products and our aestheticians are happy to educate you and help you create a skin care regimen that will bring you results.

Foods That Fight Wrinkles...
Doctors, beauty experts, and nutritionists all agree that eating more fruit, whole grains, and healthy fats can keep our bodies, and our skin in great shape. There are specific foods that can improve the texture and tone of your skin. Olive Oil: full of anti-oxidants and heart protecting properties, it can be used to treat inflammation and keeps skin feeling smooth and soft. Blueberries: also full of anti-oxidants. blueberries have a high

Recession Talk Making You Nervous?

All of this "recession" talk is making everyone nervous about spending. But now you can feel secure knowing that you have options. Reliance financing has been around for over a decade helping thousands of patients improves their lives through surgery. They have a very simple and immediate approval process that you can complete online. They offer the most affordable and flexible credit terms in the industry with a wide variety of flexible payment options and programs to best fit your budget. Their rates begin at 6.9%, which are among the lowest on the market. They also have interest free plans for the first 3, 6, or 12 months as well as extended plans from 12-60 months with no money down and no pre-payment penalties.

Reliance Financing

Next Month's Special!
Smarter Than Smart Lipo?

You know the saying "If it sounds too good to be true, then it probably is"...be wary of those new Smart Lipo claims. In our continued effort to provide you with only the best, we recently purchased the new Lysonix 3000 with Pulse-Select liposuction machine. The new machine was designed with innovative ultra-sound liposuction technology. The Pulse-Select feature lets the doctors adjust the intensity according to the area being treated. It results in decreased tissue damage and bruising, and a greater percentage of fat concentration versus blood obtained. It provides excellent results for those tough trouble spots. This technology is safer and much more effective than Smart Lipo. This a great reason to finally schedule that surgery you have been thinking about! Call us now for your appointment.
