Dr. Michael Kelly and Dr. Carlos Wolf celebrate 15 years of partnership

BY LEE STEPHENS

The month of June marks a milestone anniversary for Dr. Michael Kelly and Dr. Carlos Wolf, who are celebrating 15 years of success as founding partners of Miami Plastic Surgery. With having recently added two new surgeons, two Physician Assistants, and three medical aestheticians, as well a new Coral Gables location, there is certainly much to celebrate.

“It is a celebration of 15 years of not only our partnership, but also establishing lasting relationships with patients and being able to make a positive difference in their lives,” reflects Dr. Kelly.

While many things have changed over the last 15 years, one thing that remains constant is the importance Drs. Kelly and Wolf place on actual relationship with their patients. In fact, they credit the majority of Miami Plastic Surgery’s success to the loyalty of their patients and accredit more than 80 percent of the practice’s business to word of mouth referrals.

“It has been an incredible journey thus far,” adds Dr. Wolf. “Our strong partnership is no doubt the foundation for our collective success. Together, in tandem, Dr. Kelly and I work to provide our patients with a high-quality experience at Miami Plastic Surgery.”

Together, the doctors have over 60 years of combined shared experience. Dr. Wolf, a graduate of the University of Miami, is board-certified by both the American Board of Facial Plastic and Reconstructive Surgery and the American Board of Otolaryngology. He is a columnist for *The Miami Herald* and has been featured as the expert consultant for national, regional and local publications

including *Vanidades*, *The Napa Valley Register* and *Cosmopolitan en Español*.

Dr. Kelly graduated from the University of Illinois and is certified by The American Board of Plastic Surgery and is also a member of the American Society of Plastic Surgeons. For more than 15 years, he has been consecutively named one of the Top Plastic Surgeons at either the local and national level by different organizations and is featured as a top doctor in *American Way*, American Airlines’ prominent in-flight magazine.

Miami Plastic Surgery offers a wide

array of surgical and non-surgical procedures to help improve, restore or reconstruct aspects of a person’s appearance. In 2012, Dr. Kelly and Dr. Wolf were joined by Dr. Johnny Franco, and earlier this year, brought on Dr. Max Polo, who specializes in breast reconstruction for breast cancer patients.

“We love what we do and genuinely enjoy making our patients happy,” continues Dr. Kelly. “I can speak for both Dr. Wolf and myself, when I say we look forward to many more years of doing just that!”
